ADDITIONAL INFORMATION

Flare Shade Cantilever Umbrellas are a robust, streamlined, premium shade solution. Flare Shade cantilever umbrellas are functionally unique in that they have been designed and engineered with the support pole to the side creating an unobstructed shaded space below. The Flare Shade Cantilever umbrella series can be rotated through 360 degrees and the canopy can be tilted to achieve the desired shade position. Flare Shade cantilever umbrellas are available in a stylish square design and a European octagonal inspired design. Cantilever umbrellas are perfect for home poolsides, resorts, or cafes and restaurants.
